SALENDRA

+91 7011579066 ♦ Delhi, NCR

OBJECTIVE

Passionate MERN stack developer proficient in Mongo DB, Express.js, React, and Node.js. I am seeking to contribute my skills in full-stack development, responsive design, and API integration to a dynamic team focused on delivering innovative web applications.

SKILLS

Technical Skills: MERN Stack, React.js, Next.js, HTML, CSS JS, JavaScript, TypeScript (Bootstrap,

Chakra UI, Tailwind), SEO Optimization, API Development (Mongo DB, Express.js,

Node.js), Swagger Docs, Third Web

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

PERSONAL PROJECTS

DELICIOUS FOOD ORDERING APP (Link->)

- Developed an online food delivery application using the MERN stack with a focus on front-end development with React. Implemented component-based architecture and state management with Redux Toolkit, adhering to best practices in React development.
- Implemented responsive design to ensure a seamless user experience across various devices.
- Integrated shopping cart functionality for dynamic item management.
- Rendered food card data using the Swiggy API for real-time updates, designed a dynamic accordion component to display detailed item information and pricing.
- Technologies used: React, Redux Toolkit, React Router DOM, Tailwind CSS, Swiggy API.

VIDEO STREAMING APP (Link->)

- Developed a Netflix clone using React to emulate the functionality and user experience of the popular streaming service.
- Implemented features including user authentication, dynamic content browsing, video playback, and responsive design.
- Integrated Firebase Authentication for secure user authentication and authorization.
- Utilized the TMDB API to fetch and display dynamic movie and TV show data.
- Enhanced search and filtering functionalities with GPT OpenAI API for improved user experience.

YOUTUBE CLONE (Link->)

- Led the front-end development of a YouTube clone project using React.js, HTML5, and CSS3 to create a dynamic and engaging user interface. Successfully implemented key features like video playback, nested comments, and live chat to enhance user interaction.
- Employed Redux Toolkit for state management to enhance application performance and maintainability.
- Integrated the YouTube API to render dynamic content and ensure real-time data updates.
- Leveraged React Router DOM for seamless navigation and Tailwind CSS for responsive and modern styling.
- Technologies used: React.js, Redux Toolkit, React Router DOM, Tailwind CSS, YouTube API.

EDUCATION

- Bachelor of Computer Applications (BCA), Indira Gandhi National Open University. 2020-2023
- 12th Passed from CBSE Board Delhi.

CERTIFICATE

- Full Stack Certificate from Udemy.
- Digital Marketing Certificate from Niveda Foundation.
